THE ESSENTIAL EVENT OF CERAMIC CREATION IN PARIS

From 29 June to 2 July 2023 on Place Saint-Sulpice will be held the 26th edition of SAINT-SULPICE CÉRAMIQUE organized by the ParisPotier association. From traditional to contemporary, from utilitarian to sculptural, more than a hundred French and foreign ceramists present all the richness of today's ceramic creation. With more than 17 000 visitors in 2022, the success of SAINT-SULPICE CÉRAMIQUE lies in these words: quality, creativity, sharing.

2023 TOPIC: ~~DO NOT~~ TOUCH!

For the 2023 edition Focus, the ParisPotier association invites the public to have a sensory experience by proposing an itinerary on the theme of "touch". The ceramists have been invited to create a specific piece that will be designed to be touched and that will be exhibited in a common scenography, for a tactile journey.

In museums and galleries, it is often forbidden to get close to works of art, and the viewer sometimes refrain himself from it. At SAINT-SULPICE CÉRAMIQUE, the visitor is invited to feel, touch, caress... to come into contact with the ceramic material.

Cracked, rough, smooth or grainy, silky, sandy or velvety, so many surfaces that call to the hand...
